

Art.No 21-20-00

- The platform is made of aluminium. Strong aluminium profiles and linear bearings guarantee smooth and quiet operation.
- Coating: mat or anodized aluminium (option: stainless steel).
- The product fulfills the requirements of the standard EN 1789.
- With outdrawable stretcher platform, the patient is carried ergonomically and safely to the transporting vehicle. The platform moves 940 mm out from the vehicle and 200mm + 200mm forward (with hydraulic lifter the movement forward is 200mm). The loading height can be adapted to different car height by adjusting the angle of platform when pulled out.
- Adjustments to sideways and height directions can be added with accessories.

Technical details

Dimensions of the table top	1650 x 560 x 70 mm
Weight	31 kg

Accessories

21-40-20	Loading roll for Pensi stretcher
21-50-00	Side supports
22-30-00	Heightener rails
22-40-00	Sideway sliding
